CONNECT WITH HIGHLY QUALIFIED ATTENDEES

TOP REASONS FOR ATTENDING EWPTE

1. Exposure to New Products/Find New Suppliers
2. Network with Industry Experts
3. Visit Existing Suppliers
4. Training & Education

ATTENDEE MAIN INTERESTS

- Wire Harness Manufacturing
- Emerging Technologies
- Assembly
- Quality, Reliability and Testing
- Factory of the Future
- Operator Training
- Advanced Packaging

ATTENDEES PLANNING TO BUY

52%

OF ATTENDEES INDICATED THEY WILL BE MAKING A PURCHASE WITHIN 6 MONTHS.

25%

WILL BE MAKING A PURCHASE WITHIN 6-12 MONTHS.

EXHIBITOR TESTIMONIALS

Our EWPTE experience this year was very good. We had our best lead results there ever and met with multiple current customers. The opportunity to show our newest product was well received. We plan to double our booth size for 2024.

– Carol Jensen, NORTHWIRE, INC.

“The overall show experience met and, in some cases, exceeded our expectations. We could list many things that made the show great. What really matters... We more than doubled our leads from any show previously. Thank you IPC/WHMA staff for a job well done!

– Greg Wasko, Mecal by Starn

We have exhibited at EWPTE for many years, and this has always been a great show to attend, meet new potential customer's while re-uniting and exchanging new ideas with our existing customer base. This year was exceptional! We had the two busiest show days in our years of exhibiting that generated a higher amount of quality leads from potential customers than we have previously

– Brian Betti, LPMS-USA

ATTENDEE TESTIMONIALS

“

We found a couple new vendors. One was something we weren't looking for, but it will work great for our business. We came looking to see new machines and found what we needed. We like to be able to see all the options in one place, on one day.

– Melvin Biri, SwRI

”

“

The EWPTE 2023 show is a well-planned informational trade show which offers a wide variety of vendors and engaging technical conferences

– Leonard J. Dompke, Simplex System Controls, Inc.

”

“

We came to see the new technology and new procedures. We were not disappointed in this aspect as we found 3 new machines that we are in the process of trying out or getting quotes on. Along with that we were looking for new suppliers for parts for our machines, in that aspect we found 5 that we are starting a relationship with. I can not wait to go back and see what else the show has in store for us.

– Steven Goff, C&G Wiring

”

2024 EXHIBITOR PROSPECTUS

LOCATED AT THE NEWLY EXPANDED BAIRD CENTER

The Electrical Wire Processing Technology Expo 2024 will take place in Milwaukee, Wisconsin. Milwaukee isn't just all beer, brats, and cheese curds! Although those are delicious! Milwaukee has a diverse cultural art scene, world class sports facilities, a variety of exquisite restaurants for foodies, and music theaters galore. Start planning your visit to Milwaukee at www.visitmilwaukee.org.
